Dryden Diving Co., Inc.
213 Russell Mill Road
Woolrich TWP., NJ 08085

Dear Don:

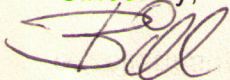

Just a quick note to thank you and Will and Clay for your outstanding professionalism in installing four downcomer seals in the Unit 2 waterboxes.

It's a unique challenge when we have to rely on multiple disciplines to support a safe and successful seal installation. I was particularly impressed with the performance of the Hunting squad. The CSI administrative group provided excellent support and organization for the team.

As a group we performed extraordinarily well. Any apprehensions I had were eliminated after the first (learning curve) day involving the divers. The dive team provided excellent insight and creativity throughout the work evolution. We relied on their performance to get the job done.

We (CSI) look forward to working with you in the future. I am now qualified to run a dive as the IPEC representative. If you need me just call. Check out our website for examples of our expertise. I'm sure we can help each other secure additional work.

Sincerely,

William A York, PE
