From: Dave Bishop 
Refueling Project Manager

Subject: Diving Services

I am taking the time to let you know how pleased we are with the services provided, by Dryden Diving Company. The recent refueling outage here at Indian Point Station, Unit #2 was more successful because of the fine effort provided.

The men conducted themselves in a highly professional manner and their experience and knowledge level was extraordinary. They worked very hard and successfully met all the schedule constraints imposed. The fact that all equipment needed was available each time they came to the site, added substantially to a successful effort on all tasks.

I look forward to working with Dryden Diving Company again in the future. I highly recommend your Marine Construction Services to anyone needing this type of work.
