Subject: Belmont Raw Water Intake Cleaning and Repair Project

Dear Don,

I would like thank you for the excellent work you did on the cleaning and repairing of the Belmont Raw Water Intakes. You and your crew worked safely, professionally and efficiently to get the job complete.

I would like to thank your dive team of Jeff Brown, Dan Nelson and Fred Constantino who, along with you, completed the tricky task of loading the large amounts of debris, cleaning of the bar screens, jet pumping all of the silt out from in front of the intakes, and finding and repairing the leak we had under our sluice gate. The work of you and your crew has to be applauded for a job well done.

I would recommend your services to anyone who needs underwater work complete. It was a delight to work with a group of professionals who really like their job and take it very seriously. I know I will be using your company the next time I need any underwater work done.

I again want to say, thank you, it was a pleasure to work with you and I know we will work together again in the future.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Michael D. Hengstler'.

Michael D. Hengstler
